THREE-PHASE INDUSTRIAL ELECTRIC SERVICE

CLASSIFICATION	DATE APPROVED	EFFECTIVE DATE	REVISION	PAGE
"605"	8/27/2024	10/1/2024	Original	1 of 2

AVAILABILITY

This rate is available to industrial consumers, as approved by the Utility, in all areas served by the Utility. Industrial consumers are engaged primarily in a process that creates or changes raw or unfinished materials into another form or product or consumption is significant as determined by the Utility.

APPLICABILITY

This rate is applicable for lighting, power and miscellaneous industrial electric service. Multiple industrial meters on one premises may be combined. Service to more than one premises shall not be combined, nor shall it be shared with or resold to others.

CHARACTER OF SERVICE

Three-phase and 60 Hertz at available secondary voltages.

CUSTOMER CHARGE

\$300.00 per customer; plus

DEMAND CHARGE

\$6.554 per kW for the first 1,000 kW; plus

\$6.254 per kW for all over 1,000 kW

ENERGY CHARGE

8.87¢ per kWh for the first 300,000 kWh or less consumed per month; plus

7.52¢ per kWh for 300,000 kWh to 1,000,000 kWh consumed per month; plus

6.90¢ per kWh for all over 1,000,000 kWh consumed per month

DETERMINATION OF BILLING DEMAND

This kilowatt demand shall be based on the consumer's maximum integrated fifteen (15) minute demand during each service month, providing such demand shall not be less than 75% of the

maximum demand established during any of the eleven (11) preceding months, and in no case shall such demand be less than 75% of the capacity required to be maintained.

MINIMUM MONTHLY BILL

In consideration of readiness to furnish industrial electric service, the minimum monthly bill shall not be less than \$300.00, nor less than charges provided under "Determination of Demand" above.

ADDITIONAL CHARGES FOR LOW POWER FACTOR

The bill calculated at the above rate shall be increased in the amount of thirty cents (30¢) per month per kVA of capacity requirements in excess of the kVA of capacity corresponding to a power factor of ninety percent (90%). The excess kVA to which such charge applies shall be determined by dividing the maximum kW capacity recorded in the current billing month by 0.90 and subtracting the results from the kVA capacity requirements at the time of occurrence of such maximum kW capacity.

PAYMENT

Bills for service rendered hereunder are payable on or before the past due date, which is intended to be no less than twenty (20) days from date the bill is rendered. Bills not paid within such period shall be considered as delinquent, and subject to service charges as set forth in the Utility's rules and regulations.

TAX PROVISIONS

In the event any privilege, license, franchise, use, occupational, or other similar tax is imposed upon the Utility by any governmental authority, either Federal, State, or local, there shall be added to the above rates and charges an amount sufficient to recover any such tax or taxes.

GENERAL

The amount calculated at the above rate will be increased or decreased under the provisions of the Utility's Rate "ECA" (Energy Cost Adjustment) by applying the effective Energy Cost Adjustment factor.
